3. "The Royal Clarence Fire: the Historical Loss & Survival"

Dr Todd Gray MBE, Research Fellow (History Department), Exeter University is organising an event for Exeter City Council on Saturday, 5 November 2016 entitled: "The Royal Clarence Fire: the Historical Loss & Survival". Venue: Barnfield Theatre.

Doors will open at 11.30 am for a 12.30 pm start until 3.00 pm. Entrance is free and on a first come first served basis.

The Royal Clarence Fire has been the most destructive fire in the recent history of Exeter. This event is an opportunity to learn what has been lost of historical significance but also to discuss what has been miraculously saved.

Dr Todd Gray will outline the destruction of the Royal Clarence itself. Three leading Exeter building specialists (John Allan, Richard Parker and John Thorp) will then outline the significance of the surrounding buildings. These form an island of largely unappreciated medieval and later structures in the heart of the city. A panel discussion will follow.

Dr Gray said: "It is important that members of the public have the opportunity to meet together and hear not just about the course of events of this destructive fire but of the importance of other buildings which have survived." These buildings are situated in 'St Martin's Island', a portion of Exeter that escaped the Blitz in 1942.
